Consulting Masterclass

- “ ***Day 1: Communication tactics***
- “ ***Day 2: An art of Change***
- “ ***Day 3: Knowing And leading People***

COMMUNICATION

Models, tools and tactics

The first session communication loop

Communication means exchanging meaning

What is your communication loop?

Tactics of involvement

Mind Maps, Cards and questions

Ishikawa Cause-Effect Diagram

- ☐ Problem
- ☐ Solution

Mind Maps

*Here we opened a fish-shop, where we
proudly sell, our good, fresh, fish!*

Card Method (in plenary sessions)

- *Write up the question/subject*
- *Participants write their inputs on cards*
 - *No critique or agreement here*
 - *Write alone, in silence!*
- *All cards are displayed.*
- *Cards are explained and grouped into clouds.*
- *As authors agree, frame clouds with a line*

Card Method (in plenary sessions)

- *Give each cloud a heading agreed/proposed by participants*
- *List and display the headings*
- *Rate headings by priorities/interest*
- *You got participation and reasonable agreement on the items to discuss*
- *Proceed with brainstorming, discussion, problem solving, decision, etc.....*

Cards Democracy:

*Cards are sacred. The aim
is Participation.*

*Better spoil walls than
people*

**Questions, questions..Is it true that all we
need is answers?**

Client Centered Questioning

Right Person

Right Subject

Yes =
Agreement on
Meaning

© Ioan Tenner 1999

© Ioan Tenner 1999

Some good questions, maybe...

- “..My best question is to listen..”
- “Tell me more..”
- “What will I tell you?”
- “Describe!”
- “What do you mean by..?”
- “Let me see if I understood:..”

Some good answers, maybe...

- .. *Why do you ask?*
- .. *How to answer to help?*
- .. *“If you had a magic wand..”*
- .. *“This reminds me of a similar...”*
- .. *My best answer is “I don’t know.”*

**The power to make things
simple**

Communication that results in vision and in action:

“You Knew it all the Time”

- “ *The stuff good communication is made of:*
 - “ *What you did that resulted in action*
 - “ *What you observed that gave results*

The sudden school - making things simple

- *Ask what you will tell*
- *Tell what you will tell*
- *Tell it*
- *Tell what you told*
- *Let them tell you*
- *Let them do it*
- *Let them..*

Expertise Transfer Tactics

The mastery-learning curve

The power to make things simple

- “ *A good expert can explain things with precision, as complicated as they are.*
- “ *A good consultant can explain with simplicity how manageable things are.*

The force of argument

Ancient Rhetoric - today

Rhetoric Wheel

- “ *ETHOS - Who you are = credibility*
- “ *PATHOS - The “client centred” attitude = rapport*
- “ *LOGOS - The power to make things simple = impact*

Rhetoric Wheels

PATHOS

LOGOS

ETHOS

The building blocks of impact

□ **ETHOS** =

□ **PATHOS** =

□ **LOGOS** =

Ethos, pathos, logos exercise

- “ *How to demonstrate Ethos, Pathos, Logos?*
- “ *A short presentation to one of your actual target audiences, demonstrating Ethos, Pathos and Logos.*

Push and pull

*The yang and the yin of
communication*

“Push”

"Pull"

“I only write the minutes”

ORGANISATIONAL CULTURES

A LANGUAGE FOR CHANGE

How do you see Organisational Culture?:

The “Structural” approach:

The “Structural” approach

The "Cultural" approach:

Certainly Master, We'll arrange:

- Site plans by next week

- Feasibility Study

- Blessings on available budget

- If it's an order, with pleasure

We'll arrange:

- Here we cut through stone

- Careful with the budget

- Re-design, please

We'll arrange:

- Training

- More funds, please

- Some extra calculations

We'll arrange:

- Here we build on sand

- God help us

- If it's an order, with pleasure

We'll arrange:

- Here we cut through stone

- Careful with the budget

- If it's an order, with pleasure

We'll arrange:

- Here we cut through stone

- Careful with the budget

- Some extra calculations

We'll arrange:

- Here we build on sand

- God help us

- Some extra calculations

We'll arrange:

- Here we build on sand

- God help us

- Re-design, please

We'll arrange:

- Training

- More funds, please

Organisation Structure

The Environment

The "Lilly Pond" model

*What you
can
observe:*

*What
people can
explain:*

*The
axioms:*

Cultures

- **Power (Profit Centre)**

-
- **Role (Traditional)**

-
- **Task (Consensus)**

-
- **Atomistic (Personalities,**

Structures

- **Web**

-
- **Temple**

-
- **Net**

-
- **Cluster**

Harrison & Handy's Four Culture Types

Power Culture

**High
Centralisation
Formalisation**

Power Rings

Web

- *Person in centre - vital; succession issues*
- *Works on precedent*
- *Anticipating top wishes*
- *Few rules/procedures*
- *Control through selection of key individuals*
- *Political organisation*
- *Balance of influence*

Power Culture

**High
Centralisation
Formalisation**

Power Rings

Web

- *Move quickly, react well. Right direction?*
- *Risk taking*
- *Faith in individuals, not in committees*
- *Tolerant of means*
- *Competitive atmosphere*
- *Size is a problem*

Role Culture

***High
Centralisation***

***High
Formalisation***

Bureaucracy

Greek temple

- .. ***Reason, logic, rationality***
- .. ***Specialisation of departments***
- .. ***Procedures for roles, communication and dispute settling***
- .. ***Individuals interchangeable for a given job***
- .. ***Positional power; experts' power tolerated***
- .. ***Fit for stable environment***

Role Culture

- *Security for individual (used to be so)*
- *Get expertise without risk*
- *Reward the satisfactory*
- *Frustration for results oriented people*
- *Economies of scale*
- *Slow, inflexible*

Task Culture

**High
Formalisation**

Net

**Low
Centralisation**

Matrix

- *Getting the job done; rewards for results*
- *Obtaining resources; right people at right level*
- *Expert power - dispersed influence*
- *Team concerns and issues*
- *Individuals identify with organisation objectives*
- *Adaptable; quick reaction*
- *High degree of self-control over work*

Task Culture

**High
Formalisation**

Net

**Low
Centralisation**

Matrix

- *Mutual respect based on competence*
- *Sensitivity to market?*
- *Fewer economies of scale; less expertise depth*
- *Favourable to initiative*
- *Difficult to control*
- *When scarce resources; teams compete*
- *Individual objective surface (Anomia)*

Atomistic, Person, Star Culture

**Low
Formalisation**

***Constellation of
independents***

**Low
Formalisation**

- ***Charismatic power***
- ***Each one does his own thing***
- ***High expertise/creativity***
- ***Shared influence***
- ***Psychological contract***
- ***Control or hierarchy impossible***
- ***Unstable conglomerate***

Communication Styles for the Four Cultures

Surprise!

AN ART OF CHANGE

*Preparing for, against and the
surprise*

Change changed, not the human being

© Ioan Tenner 1999

A rating scale - change events as “life points” lost:

Divorce = - 73 Marriage = -50

Being fired = -47 Retirement = -45

Reorganisation, bankruptcy = -39

Major change in financial state = -38

A different line of work = -36

After Holmes and Rahe 1967

A rating scale - change events as “life points” lost:

Promotion, demotion, transfer = -29

Outstanding personal achievement = -29

Trouble with the boss = -23

Change in working hours = -20

Change in residence = -20

After Holmes and Rahe 1967

Sum for 12 months:

Less than -150 = normal health next year

*150 to less than -300 = 50% chance of a
serious illness*

*More than -300 = 70% chance of serious
illness*

*Comment: Thanks Heavens, this is only
statistic.*

After Holmes and Rahe 1967

© Ioan Tenner 1999

CRITICAL SITUATIONS

The Little Sister of Crisis

A critical situation is one you will not forget.

***A critical situation is a dramatic unit of
place, time and actors.***

Exercise: Critical situations at work

- “ *Write up a list of critical situations remembered in your group.*
- “ *Chose one of them to be presented.*
- “ *Who will play whom? Don't play your own role.*
- “ *Come back to play it in the plenary session.*
- “ *7 minutes, video*

How long does it take for a child to learn that fire is hot?

Chaos is simpler than it looks.

We can learn from the critical situations and improve them:

- “ *Critical situations are typical.*
 - “ *We will meet the same again.*
- “ *Critical situations are patterns.*
 - “ *We may change the scenario.*
- “ *Critical situations are “given”.*
 - “ *But we can aggravate them or optimise them.*

Learning to change means preparing for endless surprise.

*“To be prepared against surprise is to be trained.
To be prepared for surprise is to be educated.”*

James P. Carse

..A third choice is to prepare the surprise yourself

•

Critical Situations: Lessons from the National Association of Underwater Instructors Textbook, Capalaba, Australia, 1990

- “ *The first Concept:*”.. when you go diving, you will be the most dangerous animal in the water... *Your greatest enemy is panic*”
- “ *2nd Concept:* “You can operate under pressure.”
- “ *3rd Concept:* “[Underwater] never hold your breath.”
- “ *4th Concept:* “..it is easier to relax on the bottom.. than at the surface.”
- “ *5th Concept:* “Some of your equipment makes you float and some causes you to sink.. As a diver you will want to avoid sinking.”

Critical Situations: Lessons from N.A.U.I. :

- “ *The 6th Concept: “.. if you leave things alone, they will likely leave you alone.. Don’t molest that which can hurt you.”* ”
- “ *7th Concept: “If you don’t know what something is, don’t touch it.”* ”
- “ *“When you can handle the exceptional situations, the normal ones will be just much easier.”* ”
- “ *A warning: “Water is heavy.”* ”

Positive Problem Definition

Change Staircase - Innovation in large groups

A transition path to optimise against surprise

DIP CURVES

Dip Curve

“Involved” or committed?

The “Tactic of giving a choice” and “Clear delegation”

“Completed staff work” - The Pentagon Memorandum.

- “ *The subordinate must present a completed solution and action plan for the manager to approve or disapprove.* ”
- “ *The staff officer must work out all the details.* ”
- “ *When in doubt consult with your peers, not with your manager.* ”
- “ *Don’t ask the manager what to do. He needs answers, not questions.* ”

“Completed staff work”

- “*Do not weary your manager with long explanations. He is interested in results.*”
- Test: “*If you were the chief would you be willing to sign the paper? If not, it's not yet completed staff work.*”

A future driven by people

Strategic Creativity

Preparing the surprise

On education:

“More and more about less and less”

© Ioan Tenner 1999

Four Straight Lines

Exercise:

Draw no more than four straight lines (without lifting the pencil from the paper) so that they will cross through all the nine dots...

Change I

“Bricks”

Brainstorming procedures for individuals and for groups.

Brainstorming Rules:

- .. *First individually create, then process*
- .. *No evaluation or critique*
- .. *Who's the craziest -contest*
- .. *Quantity first*
- .. *Use others' ideas*
- .. *Display all contributions*
- .. *Speed, enthusiasm, competition, play*
- .. *Small group, diversity*

Morphological forced Connections

- *List the attributes of the situation*
- *Below each attribute, place as many alternates as you can think of*
- *When completed, make random runs through the alternates, picking up a different one from each column and assembling the combinations into entirely new forms of your original subject*

After all, inventions are often new ways of combining old bits and pieces

Portraits

Synectics

Roles

Client & contributors

- *The leader is a **Facilitator** not a contributor*
- **2 x +, 1 x -**

- 1 The client states the problem*
- 2 The leader questions the client for background*
- 3 The group formulates several problem statements*

Synectics

4 The client chooses one formulation

5 The group elaborates 3 solutions

6 The group presents solutions

7 The client chooses one with his objections

8 The group proposes solutions to objections

9 The client selects one with his objections

*Repeat solution-objections until the client is
satisfied (or tired)...*

Change II

N±1

**Everything is possible, provided there
are no rules or assumptions!**

The Epistemic Detector

“Just as sight recognises darkness by the experience of not seeing, so imagination recognises the infinite by not understanding it.”

Proclus 412 - 485 AD

*Every man takes the limits of his own field of
vision for the limits of the world.*

Arthur Schopenhauer

*You see things and you say “Why?”
But I dream of things that never were
and say “Why not?”*

George Bernard Shaw

The reasonable man adapts himself to the world; the unreasonable one persists in trying to adapt the world to himself. Therefore, all progress depends on the unreasonable man.

George Bernard Shaw

1993

Stages of Strategic Thinking

Source: Kenichi Ohmae
The art of strategic thinking

© Ioan Tenner 1999

Types of Thinking

**Mechanical
systems thinking**

**A map can display
information, biases
and areas of
uncertainty**

“The Art of the General”

**All strategies try to make sense
and to give sense to some
important change.**

**Strategy is the activity of
managing the course of change**

*The aim of strategy is to change
change...our way.*

The change of change is newness. At its core is surprise.

- Newness means “something else”, forever undefined, like the line of the horizon
- At the core of newness is surprise, that something we did not know in advance. We better develop strategy to manage surprise.
- Strategy is a craft of surprise.

against

Preparing

for

the

Surprise

There are three ways of managing newness:

- *Preparing against surprise*
- *Preparing for surprise*
- *Preparing the surprise*

Preparing against surprise

Preparing against surprise- doing our best to forecast and control

- What is going to happen and how can we adapt to that future?
- What are our means and what decisions and plans can we make?
- The answer must lie in careful analysis, interpretation, forecasting, planning and implementation.

The risk, if we prepare only against surprise.

anner 1999

© Ioan Tenner 1999

Preparing for surprise

Preparing for surprise is a state of readiness

- *Keeping ready and open, with optimal means ready to use - less to defend, less to lose, more available.*
- *Learning to learn and to unlearn. How fast are we able to switch strategies in response to the unexpected real world?*
- *How can we achieve optimal change fitness? A state of company and of mind.*

If change is “something else”

"When the water rises, so does the boat."

Hagakure

Preparing the surprise

Preparing the surprise itself

- *Take initiative and re-frame the field within which strategy is practised beyond present limits, into the unknown.*
- *Reconsider and alter the basic assumptions about reality and possibility.*
- *How to change the world? Make and break rules, invent a new product, service, role, market niche.*

© Ioan Tenner 1999

*Can we know what we don't know and
trespass into the unknown, challenge
the obvious and make the impossible
possible?*

KNOWING AND LEADING PEOPLE

Managing oneself, leading others

LEADERS

Let's Get Rid of Management

People don't want to be managed.
They want to be led.
Whoever heard of a world manager?
World leader,
yes.
Educational leader.
Political leader.
Religious leader.
Scout leader.
Community leader.
Labor leader.
Business leader.
They lead. They don't manage.
The carrot always wins over the stick.
Ask your horse.
You can lead your horse to water,
but you can't manage him to drink.
If you want to manage somebody,
manage yourself.
Do that well
and you'll be ready to stop managing.
And start leading.

A message as published in the Wall Street journal by United Technologies Corporation, Hartford, Connecticut 06101.

To laugh is to risk being a fool
To weep is to risk appearing sentimental
To reach out for another is to risk involvement
To show feelings is to risk exposing yourself
To place your ideas, your dreams before
a crowd is to risk their loss.

To love is to risk not being loved in return
To live is to risk dying

To hope is to risk despair
To try is to risk failure

But risks must be taken because the greatest
hazard in life is to risk nothing.

Those who risk nothing, do nothing, have
nothing and are nothing .

They may avoid suffering and sorrow. But the
cannot learn, feel, change, grow, love, live.
Chained by their certainties, they are slaves.
They have forfeited their freedom.
